Introduction to Plastics

Image not found or type unknown

We have an area set aside for [plastics](#) where you can vacuum form plastics, cut polystyrene foam and bend rigid plastics. There is also a [spray booth](#) and fume cabinet for using spray paints and glues safely.

All students must book a workbench to be in 3D workshop. Booking a workbench for a 3 hour slot gives you a space to work and access to all necessary tools, sundries and equipment with technical supervision and guidance.

We will only be accepting booked appointments to comply with social distancing guidelines. No walk ins will be accepted.

You can book a workbench via the [Online Resource Booking \(ORB\)](#).

You must complete an online Health and Safety induction before booking a workbench.
